Externship Opportunities: Now Accepting Applications

***Track 1: Therapy (one position)**

Learning experiences include:

- Providing individual and group therapy to pediatric and adult populations
- Utilizing in-person and virtual approaches
- Conducting diagnostic intakes
- Writing brief intake summaries (1-pg max)
- Treating a range of conditions, including, but not limited to, ADHD, autism, learning disorders, anxiety, and depression
- Maintaining documentation for patient care

Weekly supervision (1 hour minimum in-person and virtual) will be provided.

Who should apply:

Applicants who possess a strong interest in assessment and treatment across the lifespan. These are fast-paced roles designed for advanced graduate students.

Track 2: Lifespan Neuropsychology (one position)

Learning experiences include:

- Conducting comprehensive neuropsychological evaluations, including diagnostic interviews, face-to-face testing, and feedback appointments
- Working with patients of all ages ranging from young children to senior adults
- Answering a range of referral questions, including, but not limited to, ADHD, autism, dementia, TBI, epilepsy, OCD, PTSD, anxiety, mood disorders, thought disorders, and personality disorders
- Writing brief, comprehensive reports
- Collaborating within a multi-disciplinary team composed of neurologists, sleep doctors, and nurse practitioners

Weekly supervision (1 hour minimum in-person and virtual) will be provided.

Now accepting applications through **January 30, 2026**. Contact information for 2 references, along with an updated CV and e-mail expressing interest, are required. Interviews will be held in February. These are 12-month positions with flexible June-July start dates. Externs agree to commit to 2 full days a week (app. 16-20 hours a week).

Both tracks offer a stipend

Submit application materials to Ryan Hinojosa at
[*ryan.hinojosa@capitalneurologymd.com*](mailto:ryan.hinojosa@capitalneurologymd.com)

**Monday attendance is required for the therapy track.*
